DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7 and 9-10, drawn to a heating device, classified in class 219, subclass 444.1.
 - II. Claim 8, drawn to a method for producing a heating device, classified in class 29, subclass 611.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the heating device can be made by a materially different process such as laminating the heating means within the support base that can have preformed alloy layers.
